Broken links and [topic] resource for [Site]

Hi [Name],

I recently came across your [page name] - you have a lot of great resources for the elderly and their caregivers! However, I noticed the link for [link name] is broken, and I thought you'd like to know given the level of detail of your page.

I also wanted to send along a resource on [one to two lines on your topic].

You can read the full guide [here](#).

If you think your readers would appreciate this resource, feel free to add it to your roundup!

Thanks,

[Name]
